

Elyas Yenealem

Full-Stack Developer | Next.js

Addis Ababa, Ethiopia | +251 978210810 | elyasyenealem@gmail.com

[Linkedin](#) | [GitHub](#) | [Portfolio](#)

Summary

Full-Stack Developer focused on Next.js, React, Node.js, NestJS, and TypeScript with experience building production web applications across healthcare, e-commerce, real estate, and education domains. Delivered end-to-end solutions featuring secure authentication, RESTful APIs, responsive user interfaces, payment processing with Stripe, shipping automation with Shippo, and database design using PostgreSQL and MongoDB. Experienced in collaborating directly with clients and development teams throughout the software development lifecycle, from requirements gathering and UI/UX design to deployment and maintenance. Holds a BSc in Computer Science and a BA in Business Administration and Information Systems (BAIS), combining strong technical expertise with business analysis and information systems knowledge. Passionate about developing scalable, user-centered applications using modern web technologies, Agile methodologies, and cloud deployment practices.

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, Responsive Web Design, SEO Optimization

Backend: Node.js, Express, REST APIs, Authentication Systems

Databases: MongoDB, PostgreSQL, MySQL, Database Optimization

Integrations: Stripe, Shippo

DevOps & Tools: Git/GitHub, Docker, CI/CD, JWT/OAuth, Jest, Playwright

Deployments: Cloud Deployment (Vercel, Netlify, Render)

Programming Languages: JavaScript/TypeScript, Java, PHP, Python

Methodologies: Agile Development, Test-Driven Development, Version Control

Languages: Amharic (Native), English (Fluent)

WORK EXPERIENCE

Bluelight Academy – School Management System | Addis Ababa, Ethiopia

Full Stack Developer

Mar 2026 – Present

- Architected and developed a comprehensive full-stack School Management System for Bluelight Academy, integrating the public website and student portal into a unified platform.
- Built and deployed the official school website (bluelight.edu.et) and the secure student portal (portal.bluelight.edu.et) with a modern, responsive user interface.
- Developed role-based authentication and authorization for Administrators, Teachers, and Students using secure JWT authentication.
- Implemented complete student, teacher, class, and academic management modules with full CRUD functionality and centralized data management.
- Designed and developed RESTful APIs to connect the frontend and backend while ensuring secure communication and efficient database operations.
- Created responsive dashboards, user management features, and administrative tools to streamline daily school operations.

- Configured MongoDB database architecture and optimized backend performance for scalability and maintainability.
- Managed deployment, domain configuration, and production hosting for both the main website and student portal.
- Technologies: Next.js 14, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS, React Hook Form, Axios, bcryptjs
- Live: [Bluelight Academy Website](#)

MT BODY OIL BOUTIQUE

Full Stack Developer

Addis Ababa, Ethiopia

Apr 2026 - Jun 2026

- Architected and developed a custom full-stack e-commerce platform for a U.S.-based perfume and body oil retailer using a modern Next.js and NestJS architecture.
- Integrated **Stripe** for secure online payments, supporting a seamless checkout experience.
- Implemented **Shippo** integration to automate shipping label generation, shipment tracking, and order fulfillment.
- Developed a responsive storefront with product catalog, shopping cart, customer accounts, and order management functionality.
- Built RESTful APIs and connected the frontend with a scalable backend while ensuring secure authentication and efficient data management.
- Collaborated directly with the client throughout development, deployment, and feature iterations.
- Technologies: Next.js, NestJS, TypeScript, Tailwind CSS, Stripe, Shippo, PostgreSQL

Biruh Kids Pediatrics Speciality Clinic

Full Stack Developer

Addis Ababa, Ethiopia

Jun 2025 - Aug 2025

- Architected and developed a clinic management platform to digitize appointment scheduling and patient record management.
- Implemented secure role-based authentication using JWT and bcrypt for staff and administrators.
- Implemented bilingual support (English and Amharic) to improve accessibility for local and international clients.
- Built dashboards for managing appointments, patient information, and clinic operations.
- Automated administrative workflows, significantly reducing manual record keeping and improving operational efficiency.
- Developed a responsive interface accessible across desktop and mobile devices.
- Technologies: React, Node.js, Express, MongoDB, JWT, Tailwind CSS
- Live: [Biruh Kids Pediatric Speciality Clinic](#)

Mulugeta Ghion Homes Sales

Full Stack Developer

Addis Ababa, Ethiopia

Jul 2024 - Aug 2024

- Developed a real estate website showcasing residential properties with detailed listings and image galleries.
- Built a custom content management system enabling administrators to manage property listings without modifying code.
- Implemented bilingual support (English and Amharic) to improve accessibility for local and international clients.
- Optimized website responsiveness and performance across desktop and mobile devices.
- Integrated customer inquiry forms to simplify communication between prospective buyers and the business.
- Technologies: HTML/CSS, JavaScript, Node.js, Express, PostgreSQL
- Live: [Ghion Homes Sales](#)

PROJECT EXPERIENCE

Fresh Corner E-Commerce Platform | Full-Stack Developer

Full-Stack Developer

- Developed a full-stack e-commerce platform for grocery shopping with secure authentication, product management, shopping cart, order tracking, and payment integration.
- Built RESTful APIs, implemented JWT authentication, Cloudinary image uploads, and integrated Chapa/Telebirr payments for the Ethiopian market.
- Designed a responsive, mobile-first user interface with real-time cart updates and an admin dashboard for managing products, categories, users, and orders.
- **Technologies:** React, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Cloudinary, Chapa, Resend, Multer
- Live: [Fresh Corner](#)

NoteDown Blogging Platform | Full-Stack Developer | Team of 5

Full-Stack Developer

- Developed a modern full-stack blogging platform with authentication, blog management, comments, likes, and image uploads.
- Built secure REST APIs with JWT authentication and implemented AI-powered writing assistance and API rate limiting.
- Designed a responsive user interface with dark/light mode and real-time state management.
- **Technologies:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Multer, Upstash Redis
- Live: [NoteDown](#)

AAU E-Learning System | Backend Developer, QA Tester & AI Integration | Team of 4

Full Stack Developer

Nov 2026 - May 2026

- Developed a full-stack e-learning platform supporting course management, assignments, exams, attendance, and real-time communication.
- Built secure REST APIs with JWT authentication, role-based access control, payment integration, and AI-powered chatbot functionality.
- Integrated Groq AI (LLaMA 3.3), Cloudinary, Brevo Email, and Chapa Payment Gateway to enhance platform features.
- **Technologies:** React, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Groq AI, Cloudinary, Chapa, Vercel, Render
- Live: [AAU Elearning](#)

EDUCATION

Unity University

BSc in Computer Science

Addis Ababa, Ethiopia

Graduation Date: March 2026

Relevant Coursework: Data Structures & Algorithms, Database Systems, AI, Web Security, Software Engineering

Addis Ababa University

BA in Business Administration and Information System

Addis Ababa, Ethiopia

Graduation Date: June 2026
